|-------------------|-------|-----------|----------|--------------------------|--------------|-------------|--------------------|
| Series            | Model | Interface | Capacity | External AC power needed | NAS Firmware | Form Factor | Recently Updated * |
| DashDrive Elite   | NH03  | USB3.0    | 4TB      | Yes                      | v2.04.06a    |             | * 2014/09/29 *6    |
| DashDrive Elite   | NH03  | USB3.0    | 3TB      | Yes                      | v2.04.06a    |             | * 2014/09/29 *6    |
| DashDrive Elite   | NH03  | USB3.0    | 2TB      | Yes                      | v2.04.06a    |             | * 2014/09/29 *6    |
| DashDrive Classic | HV610 | USB3.0    | 1TB      | No                       | v2.04.06a    |             | * 2014/09/29       |
| DashDrive Classic | HV610 | USB3.0    | 500GB    | No                       | v2.04.06a    |             | * 2014/09/29       |

**Notes:**

1. It's recommended to have the newest available firmware installed on the NAS.
2. In order prevent from USB file system damaged, please eject USB HDD from NAS admin WEB page first, and able to remove the USB driver.
3. For best compatibility in Windows, MAC & Linux, please choose USB driver format in FAT32, but support single file up to 4GB only. (Recommend)
4. For best performance, please choose USB driver format in EXT4.
5. For best Windows compatilby, please choose USB driver format in NTFS, but perfomance will be difference from Windows environment.
6. Unsupport with N2310
